Dear Ms Smith

Exemption application – Ashburton Onslow Gas Pipeline (PL 16 and PL 110)

Your application for an exemption under Part 23 of the *National Gas Rules*, as applied in Western Australia, for the Ashburton Onslow Gas Pipeline (PL 16 and PL 110) has been assessed by the Economic Regulation Authority (ERA).

The ERA has decided to grant Category 3 exemption for the Ashburton Onslow Gas Pipeline. The exemption is valid from 21 June 2023 to 30 June 2028.

Ashburton Onslow Gas Pipeline is exempt from the obligation to publish information under Division 2, other than pipeline information and pipeline service information, of Part 23 of the *National Gas Rules (WA)*. This exemption may be varied or revoked at any time, in accordance with provisions in the *National Gas Rules (WA)*.

Australian Gas Infrastructure Group must still comply with all other provisions in the *National Gas Rules (WA)* not covered by these exemptions.

As required under Rule 585(8) of the *National Gas Rules (WA)*, please notify the ERA without delay if circumstances change such that the pipeline no longer qualifies for the exemption granted.

The ERA is required to establish, publish and maintain a register of exemptions. Your application will be published on the ERA's [website](#).

Please contact Tyson Self on 08 6557 7900 if you have any questions on this matter.

Yours sincerely

Steve Edwell
Chair
